Extras

Step 1

Tape text frames

Step 2

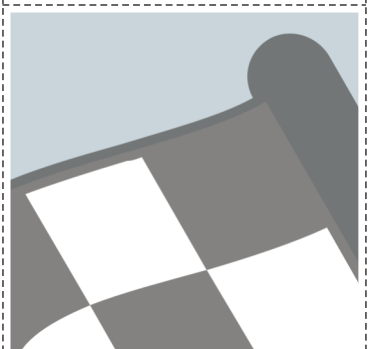

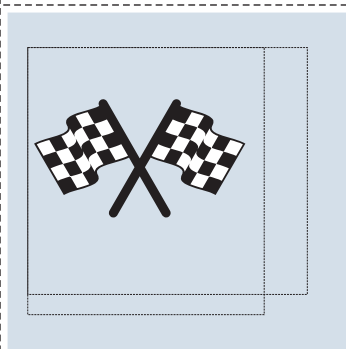

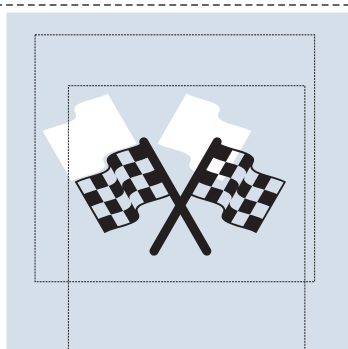

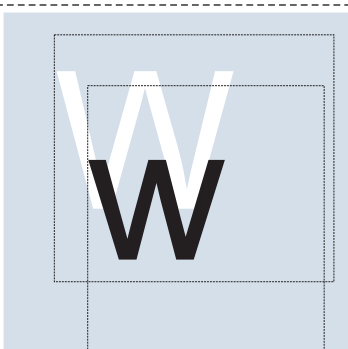

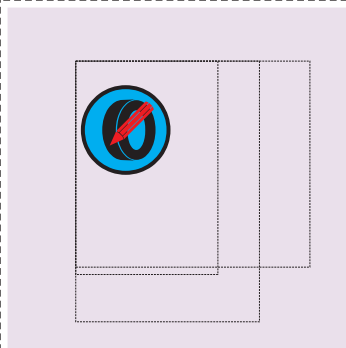

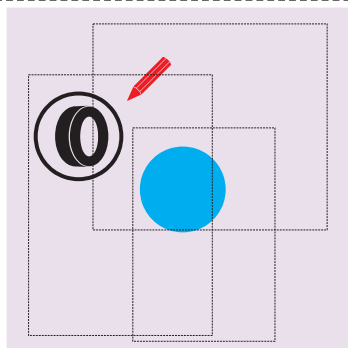

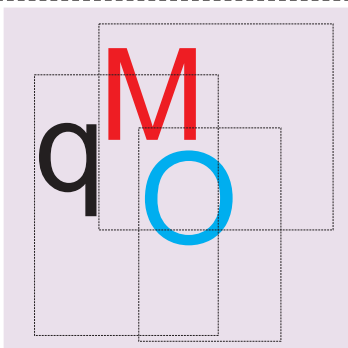

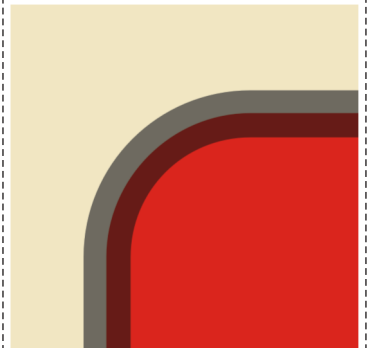

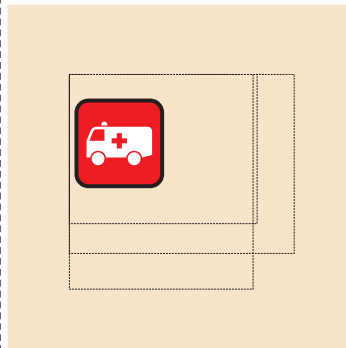

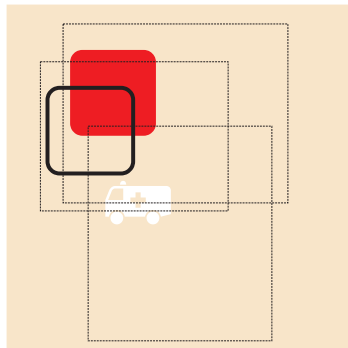

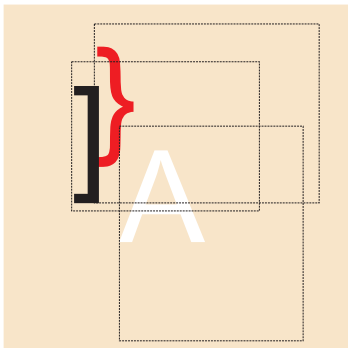

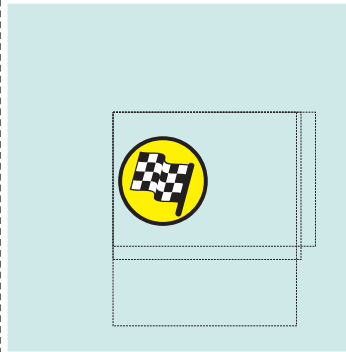

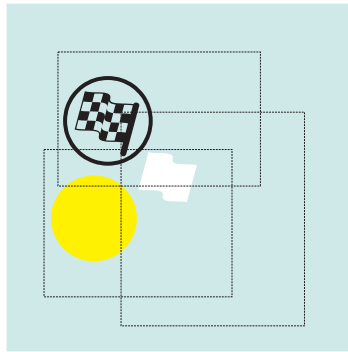

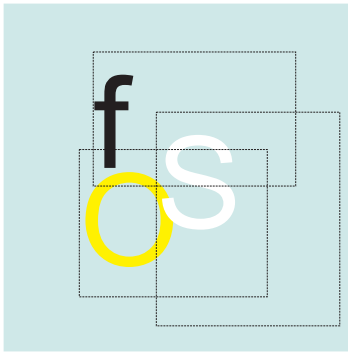

Select font
«Rally Symbols - Signs»

Step 3

Align text frames
left end top

Step 4

Use overprint fill black for best
print result

**Rally Symbols
Signs**
Character Set

The Rally Symbols 2D font family has been developed for integrated graphical motor racing design.

First of all that includes rally, rally raid, cross-country rally and hill climb.

With the Rally Symbols 2D - Signs font one can create quality road maps with rally routes and various symbol books. The font also includes symbols that can serve as workpieces to create competition logos and other design solutions.

The Rally Symbols 2D - Arrow font has been specially developed for building tulip diagram roadbooks.

It includes various ready-made combination of traffic direction indicators and individual elements that can be combined together.

The Rally Symbols 2D - Picto font can be used for the same purposes but also contains a range of convention that can help to find one's bearings on the ground.

This is a wide range of icons or pictograms of various scenery, for example: different buildings, churches, cemetery, bridges, tunnels, different types of trees, posts, etc.

The fonts are unique of its kind and are periodically updated with custom request material.

New updates are available free of charge to previous version purchasers.
